

## Product Overview

Introducing the MILES ARMY-E for the Pro-SIT Series and Pro-Turn 360 target systems. This MILES target is compliant with MILES GEN 1 MCC-PMT-90-S200M. The very latest in a long line of reactive tactical targetry products from Range Systems. Developed for the United States military, this is the premier reactive pop-up MILES target system for tactical firearms training.

## Features and Benefits

- Hit reactive
- Kill signal from MILES will send “die” signal to lifter. This results in either “die” or “bob” action.
- Target can send Reset signal to MILES sensors based upon Friend/Edge/or Foe command received by target from controller.
- 12V Powered by target lifter/turner
- Hit scoring on demand

## Technical Specifications

Dimensions	
Base	Standard ARMY-E Silhouette
Weight	
Base	12 lbs.
Enviromental	
Temperature	32°F to 140°F (0°C TO 60°C)
Rain	Water resistant, do not submerge
Battery	
Type	Powered by target system (12VDC)
Connector (Data and power)	Amphenol Mil Spec
Miles	
Sensors	7 sensors for optimal performance
Type	Advanced Legacy MILES Generation 1 MCC-PMT-90-S200M
Functions	<p>Kill signal from MILES will send “die” signal to lifter. This results in either “die” or “bob” action.</p> <p>Target can send Reset signal to MILES sensors based upon Friend/Edge/or Foe command received by target from controller</p>

### WHAT'S IN THE BOX:

- MILES Target
- Range Systems Adapter Dongle

### KEY ACCESSORIES TO CONSIDER:

- Pro-Sit series fully programable pop-up or pop-up turning target
- Pro-Bot Series all terrain robotic target platform
- GPS Options
