

Product Overview

The Pro-Drop OH is a portable, self-contained, ceiling-mounted 3D target system. Includes Manikin Mike™, Hit Sensor Assembly, hangar bracket, and battery pack. This versatile system is designed for easy mounting in ceilings, side walls, door frames, window frames, and parapets, making it perfect for enhancing realism in training scenarios at any shoothouse or range.

Features and Benefits

- A portable, self-contained ceiling mounted stand alone collapsible 3D target
- Pro-Drop OH targets can be mounted in ceilings, on side walls, door frames, window frames and parapets
- Lifelike 3D human targets collapse upon being hit
- Built in programmable hit counting system, featuring Range Systems' exclusive thin film hit sensing system
- No external remote controls required for operation
- COTS product

Technical Specifications

| Dimensions | |
|------------------------|--|
| Base | 12"x12"x4.5" (LxWxH) |
| Weight | |
| Base | 10.1 lbs. |
| Enviromental | |
| Temperature | 32°F to 140°F (0°C TO 60°C) |
| Rain | Water resistant, do not submerge |
| Battery | |
| Type | SLA 12V 7.7Ah minimum or optional lithium ion |
| Run time | 24 Hrs (50% Duty Cycle) 48 Hrs (50% Duty Cycle) with optional lithium ion |
| Charger | |
| Type | IC |
| Input Voltage | 120VAC 240VAC 50/60 Hz |
| Output Voltage/Current | 12VDC/0.8A |

WHAT'S IN THE BOX:

- Pro-Drop OH Target System
- Pro-Drop OH Power Supply
- Hit Sensor
- Manikin Mike™ 3D Target
- Charger

KEY ACCESSORIES TO CONSIDER:

- Additional Manikin Mike™
