

Range Systems has been an industry-leading solution provider of live fire facilities since 1994. Our team has an extensive history of engineering, fabricating and installing superior performing target retrieval systems worldwide. We have set the standard for range safety, unique capabilities and unmatched ballistic performance within our target retrieval solutions. At Range Systems, we understand that every project is unique and requires thoughtful planning and consideration. Through decades of experience our team is ready to work with you in selecting the right target retrieval system to meet your needs.

## Product Overview

We offer three target retrieval systems to choose from to customize your range and create the ideal shooting experience:

- Good - RS-1000
- Better - Pro-Touch
- Best - Pro-Touch 360

The RS1000 is a simple, easy to use, price point driven system. Our Pro-Touch and Pro-Touch 360 retrieval systems are more sophisticated systems that provide a high-end experience to the user without the high-end price.

## RS1000 Target System

### Key Features & Benefits

- Provides reliable product performance while maintaining easy operation at an attractive price point
- Economical to operate and maintain, which maximizes efficiency
- Easy to operate toggle control which eliminates user training and reduces manpower time and cost
- Commercial off the shelf replacement parts for minimized down time. Most repairs can be done by the operator.
- Optimal transport speed of 6 fps for the right balance of durability and usability
- Spring loaded target clamp allows for simple one handed operation
- Target carrier runs on a solid I-beam style rail utilizing aircraft cable

# HYBRID DRIVE

The industry's first hybrid Drive Unit combines advanced technology with durability for optimal performance.

## Pro-Touch Target System

### Key Features & Benefits

- 10.1" LCD touch panel
- Hybrid Drive carrier movement
- Carrier ramp-up and soft-stop functions
- Carrier moves at speeds up to 16 FPS
- One hand operation target clamp
- Overhead lane lighting
- Branding LCD screen with lane numbering

## Pro-Touch 360 Target System

### Key Features & Benefits

- 10.1" LCD touch panel
- Hybrid Drive carrier movement
- Built in target camera
- Target hit detection
- Carrier strike detection
- Carrier ramp-up and soft-stop functions
- Target lighting
- Carrier moves at speeds up to 16 FPS
- One hand operation target clamp
- Overhead lane lighting
- Pre-programmed scenarios
- Branding LCD screen with lane numbering
